

Transnational Project e-Meeting

Held via Skype on the 11th of February 2021 from 11 am to noon (CET)

Participants:

- ECOS: Stefano Moliterni, Francesca Cirulli, Barbara Collacchi
- CMet: Diane Crone, Paul Sellars
- TUM: Jürgen Beckmann
- HLU: Sampsa Kivistö
- EPSI: Sebastiano Lommi
- EitC: Johnathan Garside

After a brief welcome, the project partners discussed the following points:

- **Finnish Local Webinar**
HLU is planning to organise the Finnish local webinar on 26th of February 2021 with all local stakeholders.
- **German Local Webinar**
Due to the ongoing Covid restrictions, TUM will organise the local webinar at the end of the current German lockdown (foreseen on 7th of March) and by the 20th of March, so a possible date will be around the 15th of March 2021.
- **SPHERE Final Webinar**
The final webinar of the project will be organised by EPSI on 26th March 2021 from 2 pm to 6 pm. During the next days, EPSI will circulate among all partners a draft of the agenda in order to allow all project partners to add considerations and contributions. EPSI will specify also what it needs from the partners (presentations, materials, a list of participants and stakeholders from each country, etc.).
- **EitC's Multiplier Sport Event**
Due to the current Covid restrictions in the UK, EitC will not be able to organise an offline multiplier sport event by the end of the project (31st March 2021).
Johnathan Garside, supported by Sampsa Kivistö, proposed to adapt and deliver an online alternative for participants from across the European pilot sites to engage in a day of activities to support physical, social and mental wellbeing.
Garside has already sent a draft proposal for such alternative event.
As remarked during the call, it will be difficult to justify an online multiplier event (and during the coordinators' meeting held on February 9th the speakers highlighted various times such difficulty). ECOS will evaluate the proposal and give an answer as soon as possible.

- **Academic paper(s)**

CMet and the Scientific Committee of SPHERE will meet online by the end of February (probably on February 26th at 11 am CET) to discuss the writing of one or two academic papers related to the project activities and outputs.

CMet has already prepared a first draft of a paper and will discuss it with all members of the scientific committee.

Because of the long process underlying the approval of an academic paper (evaluation, peer review, etc.), it will take months (or years) for the final release of the paper. Anyway the draft of the paper will be uploaded on the ECAS platform as further intellectual output.

- **Administrative and Financial e-Meeting**

On Friday 19th February 2021 at 11 am (CET), the steering committee of SPHERE will meet online to discuss all administrative and financial matters related to the end of the project and the amendments requested.

All project partners are invited to add such date in their agendas and participate with an administrative staff person in order to properly address all financial issues.
